EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael Ye on October 4, 2004.

The application has been amended as follows:

Cancel non-elected claim 1.

The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a process for recovering hydrogen chloride from chlorine based waste by adding water and a reducing agent to an acid gas obtained by the combustion of chlorine based waste. EP '619,268, as previously applied, does not recognize the presence of chlorine in the acid gas and does not teach adding a reducing agent to the gas to obtain a crude HCl aqueous solution with claimed oxidation-reduction potential.

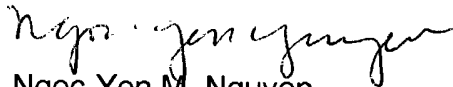

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
